

AUTOMATION AUTOMATION AUTOMATION

Our goal in plant automation is to optimize control and monitoring with systems designed to maximize your operational capabilities. Whether we provide design services for new process control systems or update an existing control system, the Cook Engineering team draws on some of the finest experts in the field.

- Instrumentation and Process Control
- Distributed Control Systems
- Start-up and Commissioning Services
- AC/DC Variable Speed Drives
- Analog and Digital Control
- Human/Man Machine Interface (HMI/MMI) Applications
- Supervisory Control and Data Acquisition (SCADA) Systems
- PLC/DCS Digital Communication/Control
- Control Panel Design
- Process and Instrumentation Diagrams (P&ID)
- Boiler Operation/Steam Distribution
- PLC Programming and Graphics Layout
