

INSTRUMENTATION INSTRUMENTATION INSTRUMENTATION

In the field of process control, Cook Engineering uses a team approach to provide instrument specifications, selection and installation details to improve process measurement. Working in conjunction with our mechanical designers, we provide instrumentation expertise to ensure operational reliability.

- Piping & Instrumentation Diagrams
- Instrument Selection & Specification
- Instrument Location & Installation Drawings
- Instrument Loop Diagrams
- Distributed Control Systems
- Control Panel Design
- Process Control Strategy Development
- Advanced Analytical Instrumentation
- Data Acquisition Systems
- HMI Selection & Specification
- Cable & Tubing Schedules
