

MINING MINING MINING

We have been serving the Mining Industry for over 30 years in the design of ore handling systems from the mining face through the processing plant; including conveying, crushing, concentration, and storage systems. We have also been active in the design of mine infrastructure including ventilation, pumping and process, and effluent treatment facilities.

- Material Handling
- Crushing & Conveying Systems
- Mine Hoist System Design/Selection & Upgrades
- Shaft & Headframe Design/Rehabilitation
- Mine Automation
- Mine Ventilation & Heat Recovery Systems
- PLC Programming
- Backfill Systems
- Construction Inspection Services
- Power System Services
- Effluent Treatment
- Air Emissions Control
- Mine Planning/Design
- Shaft Sinking Systems
