

# PULP & PAPER PULP & PAPER

## Stock Preparation & Distribution

Our process designers are familiar with the operational requirements for manipulating and distributing stock. We have designed process systems for stock delivery from the storage tanks to headbox for groundwood, kraft, sulphite, recycle and broke. We have a clear understanding of operational and maintenance considerations and can provide effective engineering solutions.

- Refiners
- Stock Proportioning
- Screens & Cleaners
- Stock Piping & Control
- Storage Tanks & Agitation
- High Density Stock Handling
- Deckers, Washers & Savealls
- Distributed Control Systems
- Additives
