

PULP & PAPER PULP & PAPER

Our practical Pulp & Paper experience rests with our staff; many of whom have worked in the industry for various producers and suppliers. Understanding the process, adds value to each and every pulp and paper project we complete. A keen sense of shut-down demands, maintenance requirements, and operational problems also adds value to our engineering designs.

- Process Design & Troubleshooting
- Piping & Pumping Systems
- Instrumentation & Controls Design
- PLC Programming
- Power Systems Studies
- Woodyard/Woodroom
- Fiberline
- Black Liquor Evaporators/Concentrators
- Cogeneration
- Environmental (Scrubbers/ESP)
- Boiler Operation/Steam Distribution
- Paper Machine/Pulp Drying/Finishing Room
- Steam and Condensate Systems
