

# STRUCTURAL STRUCTURAL STRUCTURAL

Cook Engineering's roots lie in the expert design of major heavy industrial structures, building and equipment foundations, and structural framing. Our structural engineering abilities are enhanced through the use of state-of-the-art computer applications such as finite element analysis. We have applied this technology to large frames, conveyor galleries, and mat foundations.

- Foundation Design
- Vibration Analysis
- Structural Evaluation & Upgrading
- Finite Element Analysis
- Structure Design
- Dynamic Analysis
- Frame Analysis
- Crane Refurbishment
- Piling
- Cost Estimating
- Construction Supervision
